

# PC-Crash 12.0

## Dropbox download instructions

In the provided email, click on the download link “Download PC-Crash 12.0”

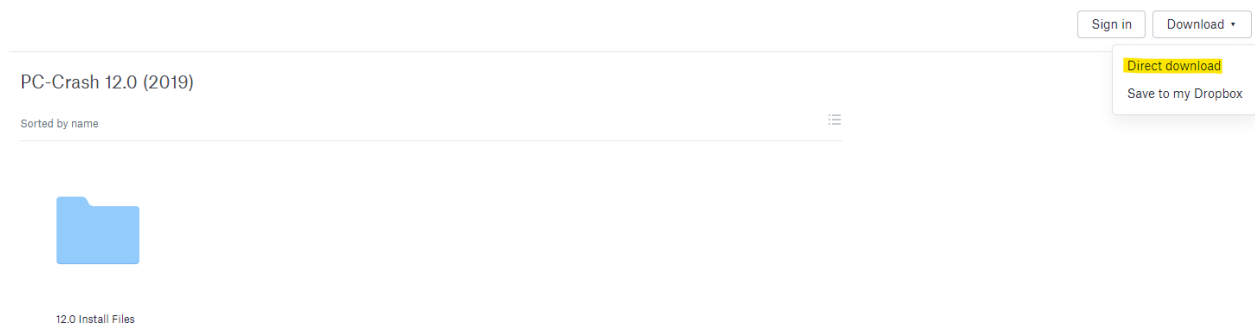

Thank you for purchasing PC-Crash 11.1. Please click the following link to download a copy of PC-Crash 12.0’

### [Download PC-Crash 12.0](#)

You will be directed to the Dropbox download page. You are not required to have a Dropbox account or sign in to Dropbox to download PC-Crash 12.0.

### Option 1 - Download as a single folder “12.0 Install Files.zip”

In the right-hand corner, select ‘Download’ > ‘Direct download’ (as shown below).

The installation files will be downloaded as a zip folder to the ‘Downloads’ folder on your computer.

PC-Crash 12.0 is ~15.7 GB so the download process may take some time (at least 25 minutes). Please ensure you have a secure internet connection during the download process.

If you experience any downloading issues, try selecting and downloading individual folders. See download “Option 2” below.

## Option 2 – Download individual sub-folders (6)

Click on the blue folder “12.0 Install Files”.

### PC-Crash 12.0 (2019)

Sorted by name

12.0 Install Files

You will now see six (6) sub-folders and the PC-Crash 12.0 Installation Guide (pdf). You can click on one blue folder, then select ‘Download’ > ‘Direct Download’, to download the selected sub-folder.

Tools

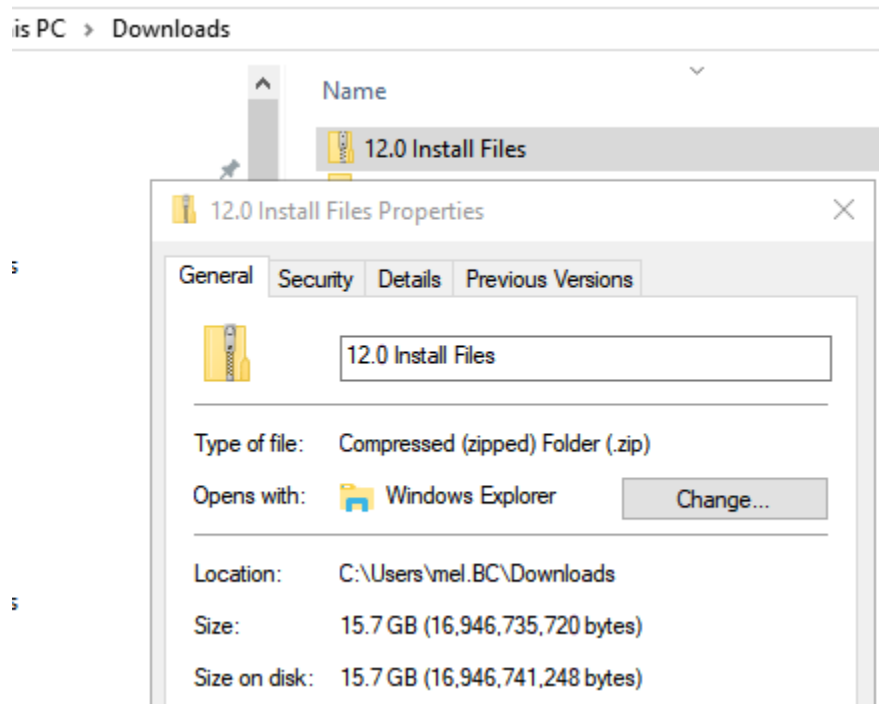

For example, click on the blue folder “DirectX Vehicles”. Now you will see two (2) folders. On the right-hand side, click ‘Download’ > ‘Direct download’. This starts the download process for “DirectX Vehicles”.

The same process will need to be followed for the remaining five (5) folders and the installation guide (pdf).

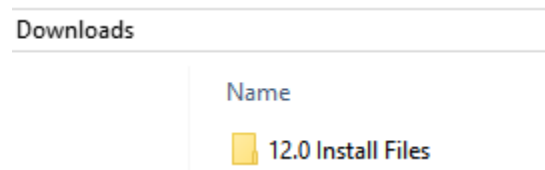

### Extract/unzip downloaded installation files

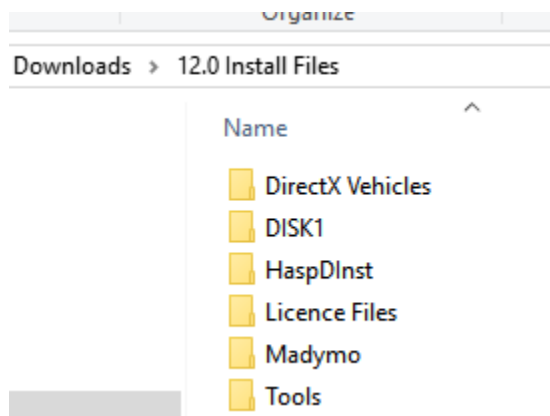

Please ensure your zip folder(s) add up to approximately 15.7 GB as shown below.

If you have downloaded the installation files as one folder (Option 1), you will need to unzip this folder. If you have downloaded the sub-folders individually (Option 2), you will need to unzip all the folders. The unzipping/extracting process will take a few minutes.

Once you have all the files unzipped, you can now access the installation files and begin installation of PC-Crash 12.0. You should have six (6) folders as shown below.

### Save PC-Crash 12.0 installation files

Once you have downloaded all the files, it is recommended to keep a copy of all the installation files in one place on your computer or transfer them to a USB should you need to install PC-Crash 12.0 again in the future and/or additional computers. You can complete this after installation.

Please note PC-Crash can be installed on as many computers as you wish; however, the full version can only be run on computers which have the dongle/hardware key inserted and the applicable licence files saved.

### PC-Crash 12.0 Installation

For installation, please refer to the provided pdf "PC-Crash 12.0 Installation Guide".
